SUMMARY

Proficient Java, Python, and C++ developer with experience in building APIs, data transformation layers, and user interfaces. Skilled in AI/ML concepts including LLMs, RAG, and Transformers, with experience in tools like Hugging Face and TensorFlow. Possesses a strong understanding of database management with Oracle, PL/SQL, and SQL Developer. Achieved recognition in the Smart India Hackathon for a Blockchain-based MRV system.

EXPERIENCE

SOFTWARE DEVELOPMENT ENGINEER:

Barnes Inc

Feb 2026 - Present

- Built an **API Mapping Studio** using **React, Python**, and **RESTful APIs** for visual API mapping and data transformation; implemented **RapidFuzz**-based fuzzy logic for confidence scoring, **Genetic Algorithm**-based learning, and generated **JSON mapping** configurations..
- Developed and optimized **PL/SQL** procedures/packages in **Oracle Database** for automated **banking variable calculations** and financial data processing.
- Contributed to **Oracle database upgrade** activities, including **pre-upgrade health checks**, **upgrade execution**, and **post-upgrade validation** to ensure successful migration and system integrity.

SKILLS

- Programming Languages: Java, Python, C++
- Concepts: Object-Oriented Programming (OOP), Data Structures and Algorithms (DSA), Machine Learning, Deep Learning
- AI/ ML: LLMs, RAG, Transformers, Prompt Engineering, Embeddings, Semantic Search, Langgraph, Langchain, n8n, Agentic AI.
- Tools & Frameworks: Hugging Face Transformers, TensorFlow, Karas
- Database & SQL: Oracle Database, PL/SQL, SQL Developer

PROJECT

Flappy-Snake-Sweeper(3 in 1 games)

- Developed a game called Flappy-Snake-Sweeper using Java and the Swing library.
- Integrated elements from popular games like *Ashley Cannon* , Snake, and Minesweeper to create a unique gaming experience.
- Implemented game mechanics, collision detection, and scoring systems.
- Designed and developed the graphical user interface using Swing.

AI Image-Caption Generator

- Built an AI tool that generates image captions using CNN-LSTM models.
- Added text-to-speech support to aid visually impaired users.
- Trained on MS-COCO dataset; optimised for real-time use.
- Combined computer vision and NLP for accessibility-focused design.

EDUCATION

Bennett University(Times of India)

Bennett University(Times of India) • Greater Noida • 2027

- CGPA: 8.64 | (Aug, 2023 - 2026).

XII (CBSE)

Dyal Singh Public School(DSPS) • Karnal • 2023

- 85.4%.

X (CSBE)

Dyal Singh Public School(DSPS) • Karnal • 2021

- 94.2%.

AWARDS & HONOURS

Blue Carbon MRV System (Smart India Hackathon 2025)

- Selected among Top 100 out of 600 projects in University to advance to the National Round.
- Built a Blockchain-based MRV system for transparent verification and storage of blue carbon data.
